Our Leisure Time

Since our professional lives are pretty well set, we make it a point to take time for each other, our family and ourselves. During the course of the week, we enjoy being together at home, watching a movie or doing projects around the house. We both enjoy planting flowers and a garden each spring. We also enjoy sitting out on our deck relaxing and watching the birds. We also like to go for walks with Heather's Dad at the park which has a walking trail. Individually Jason enjoys watching Football and Baseball, while Heather loves to read and do cross stitch.

Our House & Neighborhood

OHIO

We live in a wonderful community in Ohio. We live in walking distance from one of our community parks and a short drive from another. Our home is a ranch style home with three bedrooms. We live in a community with new schools that are all on one campus. We have a nice sized backyard. We have wonderful neighbors who are very friendly.

In the winter we like to spend our time indoors, but once the weather turns we both love to be outdoors. We have a sunroom in front of our house that we love to sit out in. We spend some of our leisure time on our deck out back watching the birds. We are just a short drive from our public library and there are several churches in our community.

Our Home

Our Extended Families

We both have wonderful families that have been supportive to us. They were always supportive through our infertility treatments and now during our adoption journey. We enjoy spending as much time as possible with our extended families.

We live about one mile away from Heather's parents. We see them a couple of times a week. Heather's brother lives 200 miles away with his wife and daughter. Heather, Jason and her Parents go to see her brother once a month. We like to celebrate birthdays and holidays as a family. Our niece comes to stay every summer for a few days and we really enjoy spending time with her.

We live about 12 miles from Jason's parents. We see them at least once a week. Jason's Brother lives about 12 miles away as well and lives with his wife and their 10 month old daughter and her two children from a previous relationship. We enjoy spending birthdays, family get-togethers and holiday celebrations together.

Jason's Extended Family

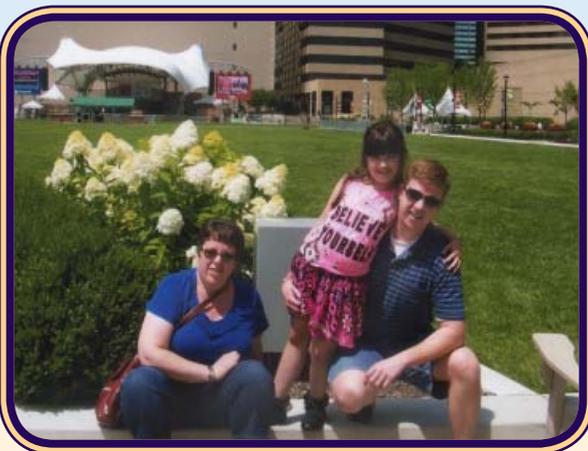

Heather's Extended Family

Cultural Heritage

Heather's cultural heritage is unique. Her father and mother met in England while her father was stationed in England. Her mother is originally from Banff Scotland but moved to England when she was thirteen. Her father is originally from Ohio. Her father was in the Air Force for 20 years so Heather adapted to moving quite often. Her family was stationed in Germany, Florida, and England. Heather was born in Germany and has two birth certificates. One is American and one is German.

Our Niece

At Columbus Commons
with Our Niece

Our niece is very special to us. She is 8 years old and when she was younger she couldn't say our full names so she just started calling us "H" and "J". We have a close relationship because we are her only aunt and uncle and that relationship makes it so special because we love her so much and will do anything for her.

We have our own special time with her by playing Monster High dolls, Disney Fairies, and Legos together. We love to spend time with her and look forward to seeing her whenever we can.

At The Statehouse With Family

Dear Birthparent(s),

As we sit here to write this letter we cannot imagine the life impacting decisions that you are about to make. We respect your decision to consider adoption for your child and understand how difficult this decision will be. This decision must have required a huge amount of courage. We will feel very privileged if you choose us to be a family to your child.

We have been a couple for over twelve years, we have been married for almost ten years. We met while we were both working at a local store. We were friends for a while and would have lunch together if we worked the same hours. We are best friends and are truly committed to each other and feel that everything we have gone through to have a family has brought us closer together.

Heather looks forward to sharing her love of reading to your child and cannot wait to sit and read to your child. Jason is excited to share his love of model trains with your child. He has a model train layout in our basement. We look forward to experiencing the world with your child and also your child's firsts. From the simple things like playing in the backyard and family get-togethers and also family vacations. We believe education is very important and hope to help your child fulfill his or her hopes and dreams.

We enjoy spending time with our families and are excited to pass on our family traditions to your child. We look forward to big holiday dinners with extended family and also such things like Easter egg hunts and decorating the Christmas tree.

Your child will always know about their adoption story and about how difficult a decision this must be for you. Also the love and selflessness that you the birthparent showed for your child. Your child will know on a daily basis how special and loved they are. They will know how much it means to us that we have been chosen to be your child's family.

We will be very happy to share pictures and letters with how your child is doing. We want to thank you for reading our letter and hearing our story. May God give you the strength to make this very difficult and respect you for whatever choice you make for you and your child.

Jason & Heather
